

Robinhood Financial

Gold Pricing

Includes in-depth research reports from Morningstar on about 1700 stocks, bigger instant deposits, access to margin, and Level II market data (monitoring real time bids and asks directly from Nasdaq).

Current Pricing

Cost for 30 days Includes \$1,000 of margin	\$5
Margin over \$1,000	4.25%
Margin rate shown is as of June 16, 2022. The margin interest rate is calculated by adding 2.5% to the upper bound of the Target Federal Funds Rate which is set by the Federal Reserve, and is subject to change without notice. The formula used to calculate the margin interest rate is subject to change at Robinhood Financial's discretion.
